NDIANAPOLIS, Ind., June 20 .- The Indianapolis News today received a special cable from Hector Fuller, its special stuff war correspondent at Chefoo, giving the following account of his release from Port Arthur and the situation inside the besieged fortress:

"CHEFOO, June 20 .- After spending five days in a Russian prison I was released and put on board a Chinese junk and sent to this place.

"The stories of starvation in Port Arthur spread by the Japanese are untrue, as stores and supplies are constantly arriving at the besieged city rom Chinese ports. The Japanese blockade is ineffective.

"The garrison consists of between 50,000 and 60,000 troops and the health of both soldiers and civilians is good. The damaged battleships have all been repaired and the harbor entrance cleared of obstructions. Immense new forts have been constructed and, in my opinion, the place is in no immediate danger of falling into the hands of the Japanese

# Suspected Robbers Raid Mining Camp Charles W. Lewis

Four Men Believed to Have Held Up Northern Pacific Train Demand Food.

ISSOULA, Mont., June 20 .- Four men, suspected of being the robbers who held up the Northern Pacific train at Bearmouth, appeared at a mining camp on Harvey creek, twelve miles south of Bearmouth, Friday night, and demanded food. They were mounted and carried canvas bags. One man held up the miners while the others ransacked the camp for food for themselves and their horses. After remaining two hours for rest, the four rode off in a

southerly direction. This is a new clue, but the scent is too old to be taken up. It was thought by the posse who started from Bearmouth the morning after the robbery that the men went north. The appear-ance of the hold-ups so near the scene of the robbery, twenty-four hours after the affair, means either that they circled or had a hiding place near Bearmouth.

For many years, in one position and another. I was connected with the New York National Guard, and therefore I understand, as only men thus connected can understand, what the Twenty-third regiment has done and what it means. I take peculiar pride as head of the Nation in welcoming representatives of these men who performed duties that ought, under ideal conditions, be performed by all Americans. For under our system of government ideal, not wholly attainable ideal, but ideal to which we must constantly seek to approximate, must be when every citizen dees his full duty in private life in civil life, and so trains and handles himself as to be able whenever the Nation calls to arms, to do his full duty in military life. You have realized that ideal, gentlemen, and I congratulate you and thank you and bid you welcome here.

### Anarchists Deported From Colorado

Gen. Bell Declares His System Has Rid the State of Red-Flag

Followers. RIPPLE CREEK, Colo., June 20 .- In response to a telegram

from an Eastern newspaper asking for a statement from as to whether he said that Gov. Peabody would soon have to declare the whole of Colorado in a state of rebellion and put the State under martial law, Adjt.-Gen. Bell has replied as follows:

"The alleged interview is absolutely without foundation. I not only never gave out such an interview, but the idea is absolutely foreign to my mind, under the past and present conditions. "There is no need of declaring Colo-

rado under martial law. "The whole State practically has been cleaned up by my deportation system. There are but few anarchists and socialists left who can cause trouble.

"However, should it become a military necessity, the whole State of Colorado will be placed under martial law and all will be placed under martial law and all insurrectionists dealt with accordingly. "I do not believe that this will ever be necessary. In my judgment, the Colorado labor troubles are at an end. "We have been making the fight for the whole of the United States, as the Western Federation of Miners has been

receiving financial support and other assistance from the country at large. Colorado is looking to other States to follow suit."
